Breezy:

In an email that I received today from my Honesdale Branch map contact, I learned that he was working in the Engineering Department of the D&H at the time of the CP takeover. At that time, CP announced that all D&H maps were to be sent to Canada.

Given that announcement, my map contact went into high gear (so to speak) at the D&H's deluxe scanner and scanned everything that he could get his hands on. What a wonderful service he rendered to the D&H! Makes me want to buy a big bottle of Champagne and send it his way.

D&H maps in a vault in Canada don't do anybody any good.

And so, in the name of history, and on behalf of the historical record, we march forward!

Robert

Dr. Powell,

Yes, that was a great service.

Now the only ones we're missing is the Archbald Branch ones...maybe he has them too.

Breezy
